ASME American Society of Mechanical Engineers), VIII Section, 1 Div. for the design and manufacture of pressure Equipment and the use of the "U" Stamp.

# PRODUCTS

## 2 - Belting & Conveyor Components:

- Conveyor belts for the mining, tunnelling, quarries and heavy-duty processing industries.
- Conveyor belts for the agriculture and the food industries.
- Conveyor belts for the individual items transport and packaging industries.
- Components to optimize the operation of the conveyor system.
- Vulcanising presses for jointing or repairing conveyor belts.

## 3 - Conveyor Pulleys and Idlers:

- Idlers.
- Pulleys.
- Bearings.
- Take Up Frames.
- Custom Products.

For the following Industries: Hard Rock, Aggregate, Cement, Grain, Power, Package/Unit Handling, Coal, Contract Mfg. Etc.

## 4 - Screening Equipment for mining, building materials, metallurgy, transportation, coal, chemical and environmental protection industries with the best German Technology:

- Linear Motion Screens.
- Circular Motion Screens.
- Sinter-Pellet Screens.
- Banana Screens.
- Multideck Sizer.
- Grizzly Feeders.
- Finger Screens.
- Vibrating Feeders.
- Hopper Discharge.
- Gearbox Exciter.
- Screen clothes
- Spare Parts

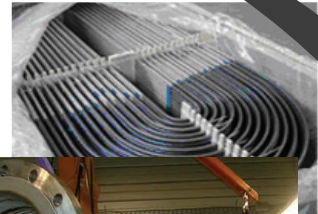

## 5 - Stainless Steel Sheets and Pipes:

- Process Pipes.
- Heat Exchanger Tubes (Including U-Tubes).
- Feedwater Heater Tubes.
- Condenser Tubes.
- Boiler Tubes.
- Evaporator Tubes.
- Coil Tubing.

## 6 – Stainless Steel Hoses and Bellows Expansion Joint

## 7 - Pumps and Compressors

## M & L SUPPLY - ENGINEERING DEPARTMENT

In addition to our portfolio of services, we offer a wealth of experience with our Engineering services from design to manufacture.

Our Engineering department provides 3 levels of service to our customers: E, EP and EPC. 'E' is our engineering service. We can provide our customers with an engineering plan for their factories. This includes a design of petrochemical equipment, pipe supports, pipes, condensers, flare gas recovery system, etc. 'EP' (Engineering and Procurement) provides both the engineering design and equipment supplies to our customers. 'EPC' (Engineering, Procurement and Construction).

Since 2009, the Engineering Department of M & L Supply has been dedicated to the design and manufacture of heat exchangers with an emphasis on developing bespoke components or products variation to overcome specific problems.
